

Appl. No. : 10/628,212
Filed : July 28, 2003

IN THE SPECIFICATION:

Please amend paragraph no. 0137 as follows:

[0137] Alternatively, the microphone 75 can include a forwardly facing aperture, as illustrated in Figure 5B, and a wind sock 81 disposed over the aperture. The wind sock 81 can be made in any known manner. For example, the wind sock 81 can be made from a shaped piece of expanded foam. Configuring the ~~bridge portion 52A'~~ bridge portion 52A'' as such is particularly advantageous because the bridge portion of an eyeglass is typically somewhat bulbous. A wind sock can be shaped complementarily to the ~~bridge portion 52A'~~ bridge portion 52A''. Thus, the sock 81 can be made so as to appear to be part of a normal bridge portion of an eyeglass.
